

In light of the unprecedented and extraordinary circumstances surrounding COVID-19 and out of an abundance of caution, our practice, City Smiles DC, will follow the American Dental Association (ADA) and Local DC Government guidelines.

Effective 5 PM, March 17, 2020, through April 3, 2020, our office will be closed to elective procedures (hygiene appointments, fillings, etc.). We will reopen at 8 am on April 6, 2020.

The official figures on exposures currently are relatively low in our area. The CDC, however, expect those numbers to grow in the coming weeks. In the interest of our patients' health and the health of our team members, these measures can play a role in limiting the spread throughout our entire community.

As dentists, we are a major part of healthcare delivery and continuously prioritize the overall health of our patients. Taking responsible action right now is the best thing we can do at this time for our patients, office team and health care system.

These are unprecedented times and we wish you and your family the very best in health and safety.

Sincerely,

Dr. Ross & the City Smiles DC team.
